

## EASTERN POWER TECHNOLOGIES, INC. IS AN ESSENTIAL BUSINESS

To Our Valued Customers:

Eastern is designated as an essential business as a Critical Infrastructure Supplier. In the event that a “stay at home” or “or shelter-in-place” mandate is issued, please know that Eastern will remain open and ready to serve you.

It is our mission to provide pipe, valves, fittings and plumbing fixtures that connect infrastructure and industry to the resources they depend on, all across North America. We continue to work with our vendors to understand the potential impact on our supply chain and have contingency plans in place to ensure delivery if disruption should occur. We are here to assure our customers that we have the inventory and/or the access to inventory to continue to serve your needs, uninterrupted.

Eastern is prepared to stay open and we are committed to remain open with the full ability to service our customers.

Please do not hesitate to contact us if you have any questions.

Stay Well,

Eastern Power Technologies, Inc.
